FRAILES

LOS FRAILES
BAJA CALIFORNIA SUR, MEXICO

Located just below the Tropic of Cancer on the Sea of Cortez, Hotel Bahia Los Frailes lies 30 miles northeast of Los Cabos. Here in the East Cape region you'll find the best

fishing in all of Baja in an area that extends from the Gordo Banks, 20 miles south of Los Frailes to the Buena Vista area, 25 miles to the north. Swimming, diving, and snorkeling are unsurpassed in the Los Frailes area of Baja. 700-foot deep

Los Frailes Bay is protected from the November through April northern winds by Los Frailes mountain.

The warm water temperature and very gentle surf make for perfect swimming

conditions almost year round. The

northernmost living coral reef in the eastern Pacific grows in five to forty feet of water in the next bay to the north called Cabo Pulmo which is

designated an underwater park by the Mexican government (no taking of fish or shellfish of any kind is allowed). Here, diving and snorkeling are superior.
